

Workshop on Data Science and Deep Learning (DSDL2018)

Sponsored by Department of Statistics and Actuarial Science
under the Kin Lam Development Fund for Data Analytics

April 7, 2018 (Saturday)

9:30 am - 5:05 pm (9:00 am - 9:30 am Registration)

Theatre P4, Chong Yuet Ming Physics Building, HKU

About the Workshop

Data science and deep learning become extremely active research areas in statistics and computer science. They bring both big opportunities and unprecedented challenges to traditional research exercises. With the generous support of Professor Kin Lam's fund, we plan to organize the workshop on data science and deep learning at the University of Hong Kong. The main topics of this workshop include big data analytics, high dimensional statistics, deep neural networks, large-scale optimization and GPU computing, with applications across different science and engineering fields. This workshop serves as an avenue for idea exchanging and networking for collaborations in the big data and deep learning areas, which bridges statistics and computer science to tackle the new challenges.

Invited Speakers (in alphabetical order)

Chunlin Ji	Shenzhen Kuang-Chi Institute of Advanced Technology, Shenzhen, China
Rick Jin	Social & Performance Ads Department, Tencent, Shenzhen, China
Di Lin	Department of Computer Science, Shenzhen University, China
Michael Ng	Department of Mathematics, Hong Kong Baptist University, Hong Kong
Zhihong Xia	Department of Mathematics, Southern University of Science and Technology, Shenzhen, China
Xin Yao	Department of Computer Science, Southern University of Science and Technology, Shenzhen, China
Philip L.H. Yu	Department of Statistics and Actuarial Science, The University of Hong Kong, Hong Kong
Yizhou Yu	Department of Computer Science, The University of Hong Kong, Hong Kong
Aijun Zhang	Department of Statistics and Actuarial Science, The University of Hong Kong, Hong Kong

Organizing Committee (in alphabetical order)

Fei Jiang, Guosheng Yin, Philip L.H. Yu, Aijun Zhang (The University of Hong Kong, Hong Kong)

The University of Hong Kong
Department of Statistics and Actuarial Science
